

Avery Bang is a geotechnical engineering Masters student at the University of Colorado Boulder. Her structural engineering experience includes a year internship at Shoemaker & Haaland in Coralville, Iowa.

She grew up in Iowa City and played soccer for The University of Iowa (Go Hawks!). She graduated with honors in May 2007, with a BSE in Civil Engineering and a BA in Studio Art. While at Iowa, she served as President of Engineers for a Sustainable World (ESW) and founded Iowa's chapter of Engineers Without Borders (EWB). In her free time, she spent a semester in Fiji, a summer in Italy and a winter in India. Her first experience with Bridges to Prosperity was as Project Manager of the student team from The University of Iowa, Continental Crossings. The Peruvian Yabina y Colpa bridge was completed in May 2007. She is currently living in Boulder with her dog and an itch to start on another bridge.
